

Press Release  
Lyon, 17th March 2021

## **C!Print Lyon will return in 2022**

In view of the current health situation and the persistent uncertainties regarding future exhibitions, 656 Editions, organiser of the C!Print Lyon trade show, considers that, given the ambitions of the 2021 edition, the conditions are not sufficient to organise an event next June that meets the expectations of exhibitors and visitors.

**C!Print Lyon will therefore return on February 1/2/3, 2022**, on its usual dates, to once again bring together the graphic arts, printing and personalisation community, contribute to the sector's economic recovery, revitalise the industry and, of course, recreate the link that is missing for all!

The entire organisation of C!Print Lyon would like to thank its exhibitors and partners for their confidence, and would like to renew its primary ambition, that of offering a quality event for all audiences, in strict compliance with the health regulations in effect.

Until we can meet again, 656 Editions will continue to feed the market, share the latest innovations and business opportunities and animate the community through the C!Print Sourcing digital platform, IC le Mag and C!Print l'Agence.

The C!Print organisation is of course available for any questions or additional information.
